We tried to provide a complete featured web page to access almost all iKNiTO services. Whenever you are in iKNiTO you can click on “Home” to return to the first page of iKNiTO.

# Browse

**iKNiTO** is covering all scientific and academic subjects in 9 categories:

- Sciences (Pure and Basic)Engineering & Applied Sciences
- Medical & Health Sciences
- Life Sciences & Agriculture
- Business, Management and Economics
- Art and Architecture
- Social Sciences
- Humanities
- General and Reference Works

Subjects are accessible via 4-level expandable **iKNiTO** subject-tree. Each category expands to a number of subjects, and subjects that expand to sub-subjects.

Users may browse and find their favorite subjects between more than 600 subjects.

By selecting your favorite subject, you will see all databases, journals, books, references and ... in the field.

You could also filter list of results to find high ranked journals and awarded books.

## Subject Browse

- +  [Medicine \(General\)](#)
- +  [Medicine, Diagnostic](#)

# Subject Browse

1. Subject Browse: this table could help graphically to browse by subjects. You can click on each main subject and see a new level of subjects in its below box.

With Subject browse you are able to be more familiar with existing books and journals in iKNiTO library in your field, just click on your favorite subject to see its sub-subjects, so choose one of them and click on it... now you have complete list of resources related to it.

Example:

## Subject Browse

Click on (+) to see the Sub\_Subjects:

## Subject Browse

Now you can choose any of these subjects:

Subject Browse

The Subject Browse interface features a grid of ten subject categories, each with a representative image: Reference Works, Art & Architecture, Business & Management, Life Science, Sciences, Engineering, Medical, Social Sciences, and Humanities. Below the grid is a tree view for Business and Commerce, listing sub-categories: Management (General), Industrial Management, Management Styles & Communication, Management Theory, and Economics.

The search form interface includes a navigation bar with 'All Products' and an alphabetical index (A-Z). The main search area contains fields for 'Word in Journal/Book Title', 'ISSN-ISBN', and 'Product Type' (eJournal, eBook, Database). Below these are three dropdown menus for 'Publisher', 'Collection', and 'Category'. A second row of dropdown menus includes 'Main Subject', 'Subject', and 'Sub\_Subject'. A 'Basic' button is located at the bottom left, and 'Clear Browse Form' and 'Go For Browse' buttons are at the bottom right. Red callouts 1 through 8 highlight these specific elements.

1. **Publisher:** you can select publisher name using drop – down menu.
2. **Collection:** each publisher has some products collections that you can browse by them.
3. **Category:** it is like main subject i.e. Art and humanities, Basic & pure science.
4. **Main subject:** you can select main subject, in each category for example Chemistry or mathematic ... in Basic & pure Science.
5. **Basic:** if you click on “Basic” your search will be limited only for Title or ISSN /ISBN.

## Basic Browsing

The Basic Browsing search form is a simplified version of the main search interface. It features a navigation bar with 'All Products' and an alphabetical index (A-Z). The main search area contains fields for 'Word in Journal/Book Title', 'ISSN-ISBN', and 'Product Type' (eJournal, eBook, Database). Below these are two buttons: 'Clear Browse Form' and 'Go For Browse'. The word 'Advanced' is visible at the bottom left.

## Ranking

### Journals:

One of the unique services of iKNiTO is finding your favorite internationally well-known journals in a simple way. All of the journals which are indexed in the ISI-JCR are sortable here by their ranks. This is an efficient way of making researchers familiar with the best journals published in their specific fields. Smaller rank figures indicate higher level of quality for journals and higher cited articles.

Ranking details are available in product detail of each journal:

Type	Product Title	ISSN- ISBN	Publisher	Top Rank	Impact Factor	H Index	Best Books	Product Detail
J	<a href="#">Addiction Biology</a>	1355-6215	Taylor & Francis Ltd.	• 1 <a href="#">More</a>	4.833	36		
J	<a href="#">American Journal of Respiratory and Critical Care Medicine</a>	1073-449X	American Thoracic Society	• 1 <a href="#">More</a>	11.08	228		
J	<a href="#">Annals of Emergency Medicine</a>	0196-0644	Mosby Inc.	• 1	4.133	84		
J	<a href="#">Annals of the Rheumatic Diseases</a>	0003-4967	BMJ Publishing Group	• 1	8.727	113		
J	<a href="#">Annual Review of Astronomy and Astrophysics</a>	0066-4146	Annual Reviews, Inc.	• 1	26.452	105		
J	<a href="#">Annual Review of Biochemistry</a>	0066-4154	Annual Reviews, Inc.	• 1	34.317	192		
J	<a href="#">Annual Review of Cell and Developmental Biology</a>	1081-0706	Annual Reviews, Inc.	• 1 <a href="#">More</a>	15.836	143		
J	<a href="#">Annual Review of Clinical Psychology</a>	1548-5943	Annual Reviews, Inc.	• 1 <a href="#">More</a>	9.111	35		
J	<a href="#">Annual Review of Entomology</a>	0066-4170	Annual Reviews, Inc.	• 1	11.455	100		
J	<a href="#">Annual Review of Fluid Mechanics</a>	0066-4189	Annual Reviews, Inc.	• 1 <a href="#">More</a>	12.767	86		

## Journal evaluation indicators

### H-Index:

You are also able to sort your journals by H-Index Indicators which have been provided by SCOPUS. Just click on "H-Index" in the gray bar and view your journals sorted based on this factor. Please note that the greater the H-Index the higher the rank of the journal is.

### Impact factor:

Impact Factor Score based on last version of JCR.

### Article Influence Score:

This is the journal's Eigenfactor Score divided by the fraction of articles published by the journal.

### Best Books:

iKNiTO is a suite of e-journals and e-books so users be able to search awarded books, along with ranked journals. Clicking on the 'Best Books' header cause your browse results to be sorted on awarded and not awarded books.

Showing 1 - 20 of 87,365 results.

## Summon (Web Scale Discovery)

**Web Scale Discovery (WSD)** enables you to search your favorite keywords between 1 billion academic records via Summon discovery simple search box, and then you will receive all related results in less than 1 second!!! It searches almost all famous resources in the world in one go!!!

WSD is the cutting edge search technology that has replaced the old fashion FS (Federated Search) mechanism. It is much faster and reliable than Federated Search to ensure you will not miss any single document.

The Summon™ web-scale discovery service enables a familiar web-searching experience of the full breadth of content found in your library collections—from books and videos to e-resources such as articles. It goes beyond federated search, beyond next-generation catalogs to create an all-new service for users.

Through one simple search to a single unified index, the Summon service provides instant access to the breadth of authoritative content that's the hallmark of great libraries. No need to broadcast searches to other databases —it provides one search box for a researcher to enter any terms they want and quickly get credible results in one relevancy ranked-list.

Students like the service's power to transform their search experience, and have found it easy to use and get result below the second.

Summon indexes more than 1000 Database, Journals, Books, and References such as:

- Elsevier (including ScienceDirect and SCOPUS)
- Thomson Scientific – ISI Web of Knowledge
- SpringerLink
- Wiley Online Library
- Taylor & Francis, Routledge, CRC
- IEEE Xplore
- OUP, CUP, and 120 other university press resources
- Emerald, Nature, Science
- ProQuest, Gale Ebsco Databases
- And many more databases

## Search Box

You can run your search with your desired keyword or phrase. Just enter it in this search box and get most related result just from your iKnito library or expand it to other academic resources in the worldwide.

The screenshot shows a search interface with a main search bar containing the text "Search your keywords across all of the library's resources". To the right of the search bar is a dropdown menu set to "in any Document Type" and a search icon. Below the search bar are three checkboxes: "Full Text", "Peer Reviewed" (with an information icon), and "Expand your results outside the library's collection" (with an information icon). At the bottom left is a "Search Tips" link with an information icon, and at the bottom right is an "Advanced Search" button with a downward arrow.

You can enter your desired "keyword" or "Phrase" in this search box and run a simple search to get related result among all iKNiTO library resources or you can expand it to all academic resources in the web.

## Advanced Search

allows users to search the breadth of library collections, both physical and digital, at the article level from a single search box. With its unified index of preharvested content, much from full-text articles, Summon™ turns the library search experience into one as simple, easy, and fast as possible.

The screenshot shows the advanced search interface, which is highlighted with a red border. It features the same search bar and filters as the basic search interface. Below the search bar, there are several input fields for advanced search criteria: "with these Words in the Title", "Author or Editor (Written/Created by)", "from this Publication", "ISSN", "ISBN", "Volume", and "Issue". At the bottom right, there is a "Basic Search" button with an upward arrow and a "Go For Search" button with a search icon.

Over 1,000 publishers are represented in the **Summon**™ service's index of one billion records from nearly 10,000 journals at the article level double that number available at launch. Some Key participants include ProQuest, Gale, Springer, Taylor&Francis, MLA, ABC-CLIO, Ingram Digital, LexisNexis Academic, Ingenta Connect™, IEEE, Thomson Reuters ISI Web of Science®, Royal Society of Chemistry, Nature, and Wiley to name a small number from this prestigious group.
